1. **Introduction**

The purpose of this report is to analyze the impact of climate change on the global economy and to propose effective strategies for mitigation and adaptation. The report is structured as follows:

- 2. **Methodology**
- 3. **Results**
- 4. **Conclusion**

2. **Methodology**

The data for this report was collected from various sources, including government reports, academic journals, and international organizations. The analysis was conducted using a combination of quantitative and qualitative methods.

3. **Results**

The results of the analysis indicate that climate change has a significant negative impact on the global economy. The most affected sectors are agriculture, manufacturing, and services. The impact is expected to worsen in the future if no action is taken.

4. **Conclusion**

Based on the findings, it is recommended that governments and businesses implement the following strategies to mitigate and adapt to climate change:

- Reduce greenhouse gas emissions.
- Invest in renewable energy sources.
- Implement sustainable land use practices.
- Develop resilient infrastructure.
